EDUCATION

2022 - PERSENT
UNIVERSITY OF MALAKAND

- Bachelor of Science in Software Engineering

SKILLS

- Python Programming
- Machine Learning & Deep Learning
- Web Development (Flask, Streamlit)
- AI Model Implementation
- API Integration
- Data Preprocessing & Analysis
-

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
- Pashto (Native)

PROFILE

Passionate about computing technologies, AI research, and software development. Currently pursuing a Software Engineering degree at the University of Malakand. My focus is on Python programming, Machine Learning (ML), Deep Learning (DL).and Web development using Flask Dedicated to solving complex real-world problems through innovative AI solutions.

WORK EXPERIENCE

Code Crush Technologies   DEC 2024 - FEB 2025
AI and Python Developer

- Developed AI-driven applications using Python, Flask, and Streamlit.
- Built and deployed ML models for classification, regression, and predictive analytics.
- Integrated AI solutions into web applications for enhanced user experience.

CodeAlpha   FEB 2025 - PRESENT
Intern | AI and Machine Learning

- Assisted in developing ML models for data-driven decision-making.
- Conducted research on AI advancements and their real-world applications.
- Contributed to AI model optimization and fine-tun

PROJECTS

- Brain Tumor Detection App
- Skin Cancer Detection App
- Data Preprocessing App
- E-commerce Recommendation System
- Code Debugging app
- Digital Face Attendance System
